

Collision Prevention in Distributed 6TiSCH Networks

Ali Jawad Fahs

Université Grenoble Alpes (UGA) - UFR IM²AG
Laboratoire d'Informatique de Grenoble (LIG), Team Drakkar
VERIMAG, Synchronic
Supervised by : Olivier Alphand, Franck Rousseau
Karine Altisen, Stéphane Devismes

Master thesis, 21st of June, 2017

Outline

Introduction & Background

- General Introduction

- IEEE802.15.4 Protocols

- Project challenges & Objectives

Proposed Mechanism

- Using 6top Transaction

- Avoid Table

- Cell Buffer

- Housekeeping Approach

Outline

Introduction & Background

- General Introduction

- IEEE802.15.4 Protocols

- Project challenges & Objectives

Proposed Mechanism

- Using 6top Transaction

- Avoid Table

- Cell Buffer

- Housekeeping Approach

General Introduction

IoT & Wireless Sensor Networks

- ▶ Network technologies and IoT.

General Introduction

IoT & Wireless Sensor Networks

- ▶ Network technologies and IoT.
- ▶ WSN: standardization of IoT nodes communication.

General Introduction

IoT & Wireless Sensor Networks

- ▶ Network technologies and IoT.
- ▶ WSN: standardization of IoT nodes communication.
- ▶ Main contributions are : low power consumption, low cost.

General Introduction

IoT & Wireless Sensor Networks

- ▶ Network technologies and IoT.
- ▶ WSN: standardization of IoT nodes communication.
- ▶ Main contributions are : low power consumption, low cost.
- ▶ IEEE802.15.4 one of the main standards of WSN.

General introduction

IEEE802.15.4

Converge Cast Structure

- ▶ Nodes radio ranges defines the neighborhood.

General introduction

IEEE802.15.4

Converge Cast Structure

- ▶ Nodes radio ranges defines the neighborhood.
- ▶ Sink is selected.

General introduction

IEEE802.15.4

Converge Cast Structure

- ▶ Nodes radio ranges defines the neighborhood.
- ▶ Sink is selected.
- ▶ Packets are forwarded toward the sink.

General introduction

IEEE802.15.4

Converge Cast Structure

- ▶ Nodes radio ranges defines the neighborhood.
- ▶ **Sink** is selected.
- ▶ Packets are forwarded **toward the sink**.
- ▶ Communication pairs.
